

A SMARTER APPROACH TO LIGHTING & CONTROLS

From Concept to
Completion, We Deliver

**Tired of reworking your lighting
package due to budget busts,
long lead times, or scope gaps?**

CX takes a collaborative approach from day one—aligning design, budget, and schedule to minimize risk and keep your project on track, all while delivering an exceptional space.

DESIGN & PRECONSTRUCTION

When we are involved early, we help drive better outcomes and eliminate surprises post bid time by aligning design intent, performance, and cost from day one.

- › Photometric layouts & fixture specification
- › Project budgeting, value engineering & alternate solutions
- › Lighting controls coordination
- › Real-time cost & lead time guidance

PROCUREMENT & PROJECT MANAGEMENT

We manage every detail to ensure a seamless, well-coordinated execution—keeping your project on schedule and on track for completion.

- › Dedicated project management
- › Submittals, shop drawings & specification coordination
- › Lead time tracking & expediting
- › Jobsite support & technical coordination

LOGISTICS & FIELD SERVICES

Our proven processes improve jobsite efficiency and reduce installation time—ensuring materials are delivered, organized, and ready for seamless installation.

- › Material receiving, staging & inspection
- › Prepped, labeled, & carted fixtures for easy onsite mobility
- › Reduced handling & installation time
- › Onsite support & inventory management

WHY CX

We bridge the gap between design and procurement—creating measurable value for your project.

- › Collaborative, consultative approach
- › Transparent cost management
- › Early issue detection & proactive solutions
- › Seamless experience from concept to completion
- › Focused on performance, budget, & schedule

QUALITY DELIVERED

Your trusted partner for lighting and controls solutions.
