

OUR NEWEST VERSION OF THE REEL PAYOFF®

The new premium version is now available and even **easier to maneuver!** Similar to the original, The Reel Payoff® allows you to pull directly from the pallet. When off the pallet, the Reel Payoff® rotates within its own axis for 360-degree maneuverability; perfect for small spaces. Also, there's no jack-stand needed!

SINGLE SHEET HARD WOOD

The new version of The Reel Payoff® is lighter in weight! With the single sheet, hard wood design, this enhanced version of The Reel Payoff® allows for **decreased pulling tension** and is more stable overall.

UPGRADED FEATURES

- 1 The metal drum is **pre-cut** with wire-tail slots, accomodating virtually any wire size. Slots are also contained and clean, which maintains the integrity of the reel.
- 2 The premium version of The Reel Payoff® can be used 10 times more than the original Reel Payoff under normal, controlled conditions.*

WELDED METAL BAND

Maneuvering has never been easier! With our re-designed welded metal band, you can easily position our Reel Payoff® in your desired location and get ready to pull!

ROLL-OFF POSITION

All Reel Payoff®s are shipped in **roll-off position**, reducing material handling costs and possible damage.

**Calculated values are based on time studies conducted. Results may vary based on job specific situations or applications.*
