

CASE STUDY

Client Name:	Shirey Cadillac
Market Vertical:	Car Dealership
Square Footage:	Approx. 103,857
Annual Kwh Savings:	258,835

Project Summary:

Shirey Cadillac and Connexion worked to improve the efficiency and light quality in Shirey Cadillac's parts department, showroom and shop areas by installing the latest in lighting technologies.

The overall efficiency of their lighting systems was improved by over 68% while dramatically improving the quality, balance and distribution of light. The result is a significantly better presentation of their vehicle inventory along with a more reliable lighting system, eliminating the consistent need for maintenance. This upgrade will lower Shirey Cadillac's energy usage by 91% and see a return on their investment in just 1.5 years.

We provide complete turnkey services that ensure your project moves seamlessly from concept to completion to measurement and verification.

Initial Assessment:
Objectives & Needs
