

## **Connexion Announces the Opening of Their New Chicago, IL Electrical Distribution Location**

*The new sales and distribution facility hosts more than 25,000 square feet of leading brand electrical and lighting contractor and MRO supplies*

BUFFALO GROVE, Ill. ([PRWEB](#)) October 17, 2019 -- [Connexion](#), a leading Midwest-based provider of electrical and lighting products and solutions, announces the opening of their new flagship customer service location at 217 N. Western Ave. in Chicago, IL. The new location, opening in the Fall of 2019, combines the assets and sales expertise of their former location in Chicago's Medical District with that of their recently acquired Van Meter location.

Located at corner of Lake Street and Western Avenue, the new facility more than triples their former Chicago location's square footage and doubles their inventory investment, providing Chicago area businesses immediate access to a wide range of best-in-class electrical, safety, lighting and energy saving products.

In addition to the wide product selection, an expanded, experienced staff is on hand to provide a full complement of lighting and power distribution project design services and sales and technical support. Their new customer-friendly showroom is equipped to service the needs of electrical contractors with fast material pick up, and an experience center hosting interactive product demos, advanced lighting control solutions and customized training.

“Our new location fulfills a need in our local Chicago market for the type of jobsite and facility products and services that are unique to us.” Said Josh Patton, Chicago District Manager for Connexion. “We're excited to bring our unique approach of cost-effective and personalized services to our Chicago contractor and commercial customers.”

Founded in 2007, Connexion has become one of the preeminent electrical equipment and supply providers in the Midwest. Connexion provides a wide array of leading electrical and lighting products, design services, expert application support and customized, integrated solutions meeting the unique needs of their clients.
